

OWNERS MANUAL

MOUNTAIN TOP® EVO ROLL COVER

1

WARNINGS

- Temperatures can be very high under the cover when closed.
- We do not recommend washing the EVO roll cover in a brushless carwash, as the coating may be damaged due to use of chemicals.

- The Mountain Top EVO roll cover design is lightweight and not suitable for extreme usage.
- Designed to withstand rain water, some water ingress may occur.
- Dust can enter the compartment through various gaps.
- Due to profiles which relatively quick heats up and cools down according to weath conditions can cause condensation on the inside.
- The EVO roll cover is not designed for loading although it can support normal snow loads.
- Goods in the bed must be secured during transportation to prevent damage.

- Close

- Open
- When the EVOm roll cover is fully opened, a lock activator is automatically triggered, engaging the locking system.
- For the EVOm roll cover to close correctly, the locking system must be engaged before the cover is closed.

4 MAINTENANCE

- Use the multi tool to remove the plastic covers on the side profiles.

- Remove dirt and debris using compressed air.

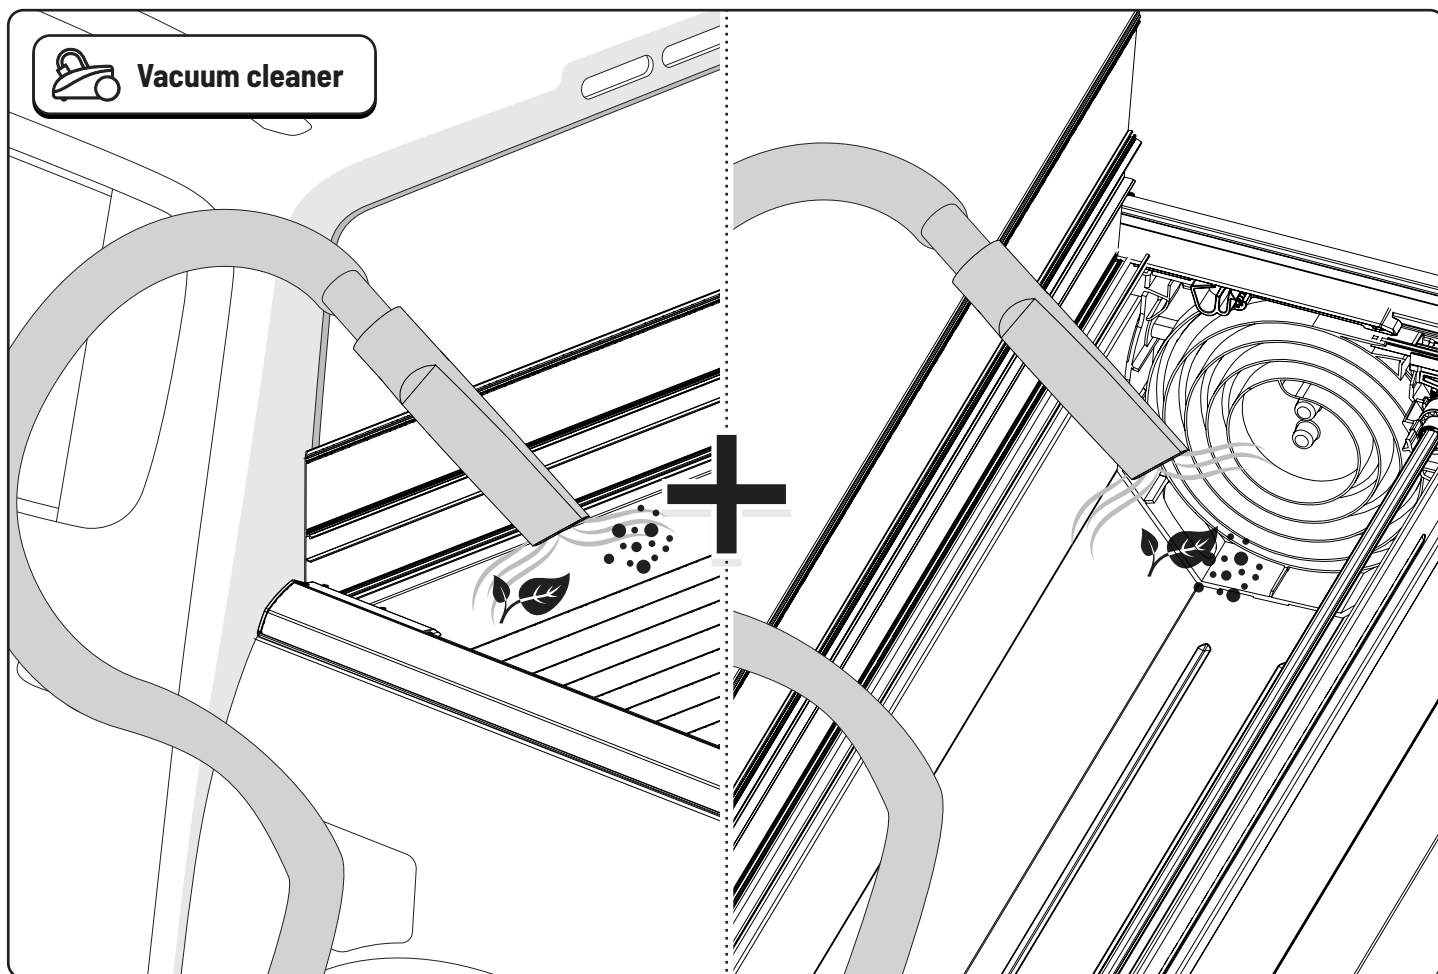

- Mount plastic covers.

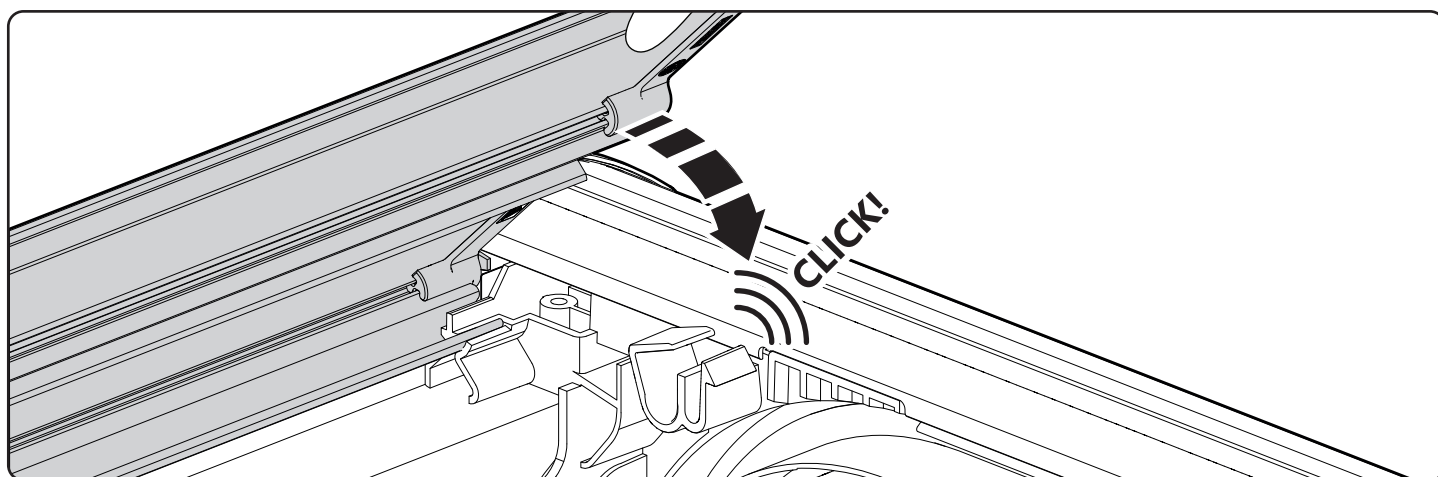

- Clean the side profiles.

- Open the canister.

- Clean the canister.

- Close the canister.

- Clean the drainage channels on the side profiles.

- The EVO roll cover should be cleaned regularly.

- Regularly, and following cleaning, apply a PTFE-free all-conditions wet lube product to the inside of the canister ends.

6

CHECK MEASUREMENTS MAINTENANCE

- Ensure the cross measurements are identical.

 Brackets

- Re-tighten the brackets after the first 1000 km. And then every 15000 km

- Maintenance requirements and frequency depend on the actual usage of the roll cover and the environments and elements that it is exposed to.
- Clean and lubricate the cover accordingly to ensure the best possible operation and function.

Type of Maintenance	Date	Done by
